Penguins

- 1 Penguins live in a very cold place called Antarctica.
- 2 Penguins are birds that cannot fly but love to swim in the
- 3 cold ocean water. They have black and white feathers. They
- 4 have a lot of fat on their bodies to keep them warm.
- 5 There are at least 17 different species. The largest penguin
- 6 is 1.1 meters tall and weighs 41 kilograms. The smallest
- 7 penguin is 41-45 centimeters tall and weighs 1 kilogram.
- 8 Their legs are short and strong and, their wings work like
- 9 flippers to help them swim. Penguins are excellent
- 10 swimmers. They can swim very fast and dive deep into the
- 11 ocean to look for food. They eat fish that they catch
- 12 underwater and drink seawater. Some penguins sleep
- 13 standing up.
- 14 Penguins spend around half of their time in water and the
- 15 other half on land.
- 16 Penguins can stay underwater for up to 20 minutes at
- 17 a time.
